LANTERN UAS

CAPABILITIES STATEMENT

Counter-drone intelligence, decision support and advisory.

UEI RRL8BK6BAN23 · CAGE 88NR8 · PRIMARY NAICS 541512 · SMALL BUSINESS

COMPANY OVERVIEW

Lantern UAS is a small business and a trusted partner for law enforcement and national security agencies. We provide counter-drone threat and policy intelligence, AI-enabled decision support and advisory to organizations that protect installations, sites, people and airspace. Our team has supported U.S. Army and Air Force counter-UAS efforts.

CORE CAPABILITIES

01 Counter-UAS threat and policy intelligence

The C-UAS Portal (coming soon): worldwide drone incidents linked to sources; platforms, tactics and actors; U.S. and European law and authorities; airspace.

02 AI-enabled decision support

PURPLE, our predictive decision-support platform: multi-sensor fusion, threat assessment against rules of engagement, ranked recommendations with human approval, full event record.

03 Critical infrastructure security and planning

Drone-based security systems for critical infrastructure; coverage planning, pattern of life, scenario and gap analysis.

04 Assessments, training and exercises

Threat and site assessments, red teaming, scenario development, tabletop exercises and training, drawing on a network of leading experts.

PURPLE operator console: a camera's field of view and the track it holds.

PURPLE electro-optical detection: a drone tracked and classified beside a building.

C-UAS Portal coverage planner at a fictional sample site.

DIFFERENTIATORS

- Small business and a trusted partner for law enforcement and national security agencies.
- Leadership from the White House National Security Council, DHS, CBP and the U.S. Air Force.
- U.S. and European coverage of incidents, law and authorities.
- Every intelligence record reviewed by an analyst and linked to its source.
- Decision support built so that people approve every action.
